

# **INDUSTRIAL REVOLUTION OF THE 1800'S PROJECT**

Choose one of the options below. Each topic should include:

**WHO** invented it? **WHEN** was it invented? **WHERE** it was invented? **WHAT** impact this invention had on America's history and **PICTURE** of invention.

1. Create an advertisement for an invention as it would appear in print publication at the time of its creation
2. Create written proposal to the Invention Hall of Fame Board of Directors concerning the induction of an invention of your choice
3. Investigative newspaper assignment announcing new invention ready to be unveiled
4. Technical. Many inventions were created during the Industrial Revolution. Select 3 inventions and create instructional/user manuals for the inventions.

*The following options would not necessarily follow the who, what, when etc... from above. Be specific w content relating to the Industrial Revolution and impact on society.*

5. Photo Essay. Find pictures of working conditions during the industrial revolution age (1800s) and photos from our current time. Photos can show child labor, factories, housing, etc. Put them together in a collage using multimedia. Examples might be a PowerPoint. Minimum of 10 pictures. Include captions with your pictures to provide descriptions of the images.
6. Health. Poor and crowded living conditions during the Industrial Revolution led to the spread of many illnesses, including cholera. Research the causes, symptoms, and treatments for cholera. Then, create a public service campaign to educate the masses about the illness. This can include posters, brochures, commercials, etc. (audience is factory workers of the 1800's)
  - Bibliography needed of sources used. Use a minimum of 2 sources.

Choose an invention from the list or come up with your own.

Assembly line  
Canning of food  
Cotton gin  
Elevator  
Light bulb  
Phonograph  
Photography  
Plow (John Deere)

Railroads  
Rubber  
Sewing machine  
Spinning jenny  
Steam engines  
Steamships  
Telegraph  
Telephone
